

Are you *the* student who wants to challenge complex problems?

ASML
Be part of progress

We push technology further

to let robots help in healthcare

to print microchips that are finer

to accelerate artificial intelligence

to make robots understand humans

Dear student,

Are you an engineering student with the ambition to work, learn and challenge the complex problems at a global tech company? Here is your chance to get into ASML, the technology leader and supplier to all leading microchip manufacturers around the world. Sign up for one of our events.

We hope to see you soon and get to know you.

Yours sincerely,
ASML

Inhouse Day

Explore your opportunities at our Inhouse Day.

At our Inhouse Day on November 24th, we introduce ourselves to ambitious technology graduates who want to push their ambitions. We would like to show you a glimpse of what common practice looks like at ASML. Join our Inhouse Day for one-on-one meetings with our driven employees, a visit to our brand new Experience Center, an information market and of course a view on our technology. Our Senior Vice President Technology Jos Benschop will open the day. There are limited seats, sign up before November 13th.

[SIGN UP](#)

Internships

Extend and enrich your technology skills with an ASML internship.

As an intern, you are part of our technology and you will work in a multidisciplinary team. Experience an international environment and have the opportunity to learn from various technical specialists. An internship at ASML is the starting point to build your own professional network.

Check our wide range of internships and graduation projects. You can also formulate your own unique assignment and work with an ASML engineer.
